## 7300G Wireless Security Set Up Instruction

You must use a computer using an Ethernet (yellow) cable that is wired to the 7300G to set up the wireless security. You should never use a wireless client connected to the 7300G to set up any type of wireless security.

Please follow the steps below to set up the wireless security:

BILLION	ADSL Firewall Route				
stus -	Wireless Security				
uick Start	Parameters				
	and the second se	Disable			
	on 'Configuration'.	Disable	*		
Ethanet	Apply Cancel				
	Conter ]
